Alberta Economy

indicators at a glance

Real Gross Domestic Product (GDP) at Market Prices

In 2012, Alberta's real GDP at market prices grew by 3.8%, the strongest growth in the country and the third consecutive year of robust growth. Real GDP growth was 5.2% in 2011. Nationally, real GDP rose 1.7% in 2012, lower than the 2.5% recorded in 2011.

Population

As of October 1, 2013, Alberta's population was estimated at 4,060,719, a 3.5% increase from a year earlier. Nationally, population grew 1.2% over the same period to reach 35,295,770.

Migration

In the third quarter of 2013, Alberta welcomed 10,269 net interprovincial migrants and 16,436 net international migrants.

Employment[1]

Monthly job growth jumped to 10,600 in November after two months of small job gains. These gains were all full-time jobs. Over the last 12 months, Alberta has posted the highest employment growth among the provinces at 3.6%, having created 78,100 jobs

Unemployment[1]

The unemployment rate moved up by 0.3 percentage points to 4.7 per cent in November as more people looked for work. Alberta has the second lowest unemployment rate among the provinces behind Saskatchewan.

NEW: Rigs Drilling

The number of active rigs in Alberta in January was 392, 6.7% above January 2013. Utilization rates were among the highest in two years.
